EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Smith on 10-30-07 and 11-09-07.

The application has been amended as follows:

Cancel claim 148

Cancel claim 192

The following is an examiner's statement of reasons for allowance:

Instant claims are directed to an oral capsule composition comprising two fractions of fenofibrate i.e., a solid particulate fraction suspended in a carrier vehicle and a second fraction solubilized in a vehicle, where in the two fraction are segregated. The prior art of record does not teach or suggests a fenofibrate composition with different fractions such as that claimed and only teaches dosage forms containing one of the fractions. Applicants have shown an increased dissolution and also an increased bioavailability of fenofibrate from a single capsule containing the claimed composition, compared to the prior art compositions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
